Paula J. Bartosiak, Principal

August 2011

Dear Parent/Guardian:

I would like to take this time to welcome you back to the school year 2011-2012. Listed below is a brief overview of some of the policies and procedures of the nurse's office, so that I may serve you better and more efficiently during the school year.

1. All students will be screened for vision and hearing. Height, weight, and BMI are obtained on all First graders. You will be notified of the results. You must notify the School Nurse in writing if you do not want your child to participate.
2. Students may receive first aid and medication, within the restrictions imposed by the standing orders authorized by the school physician, for injury or illness occurring during school hours. As always, I am cautious in giving out medications and will try other natural remedies first.
3. If your child needs any prescription medication (long-term, short-term, or on an as needed basis), the nurse must have a doctor's order. This form is available in the health office or your child's physician may use his own form. If your child is currently taking medication that should be taken at school, please bring in the medication and a picture of your child as soon as possible. This is especially important if your child uses an inhaler or has emergency medication such as an Epipen. An adult must deliver all medications to the school nurse in a pharmacy labeled bottle. **Children should not carry medication.**
4. In cases with no known cause of illness, your child must be fever free (without medicine), vomit free, and diarrhea free for 24 hours before returning to school. If your child sees a Doctor and is put on an antibiotic, they must be on the antibiotic for 24 hours before they are considered not contagious. Healthy habits are taught and encouraged at school. Please remind your child to wash their hands and use cough/sneeze etiquette.
5. Communication is very important between parents and the nurse. Please notify me with any changes in your child's health during the school year. If a health problem or injury arises with your child during school hours that warrants a phone call, you will receive one by the end of the school day.

Please return the attached Annual Student Health Update Form to the nurse's office as soon as possible. If there is any way I can be of assistance to you, or if you have any questions, please do not hesitate to call. The number of the nurse's office is: 781-585-5290. Thank you for your attention to these health matters.

Sincerely,

Jody Lunn, School Nurse
