

SAFETY PROGRAM

Accidents are undesirable, unplanned occurrences that can result in tragic consequences--bodily harm, loss of school time, property damage, legal action, and even fatality. The School Committee will guard against such occurrences by taking every possible precaution to protect the safety of all students, employees, visitors and others present on school property or at school-sponsored events.

The Committee will comply with safety requirements established by governmental authorities and will insist that its staff adhere to recommended safety practices as these pertain, for example, to the school plant, special areas of instruction, student transportation, school sports and occupational safety.

The practice of safety will also be considered a facet of the instructional program of the schools. Instruction may include accident prevention as well as fire prevention; emergency procedures; traffic, bicycle, and pedestrian safety.

The Superintendent will have overall responsibility for the safety program of the school system. It will be the responsibility of the Superintendent to see that appropriate staff members are kept informed of current state and local requirements relating to fire prevention, civil defense, sanitation, public health, and occupational safety.

Efforts directed toward the prevention of accidents will succeed only to the degree that all staff members recognize that preventing accidents is a daily operational responsibility.

PEST MANAGEMENT POLICY

The Halifax, Kingston and Plympton Public Schools and the Silver Lake Regional School District are committed to providing a safe and properly maintained environment for all staff, students and visitors. To achieve this end, the School District will implement integrated pest management procedures for its buildings and grounds.

The integrated pest management procedures shall include implementation of appropriate prevention and control strategies, notification of certain pesticide and herbicide uses, record keeping, education and evaluation.

Integrated pest management procedures will determine when to control pests and what method of control to choose. Strategies for managing pest populations will be influenced by the pest species, location and whether and at what population level its presence poses a threat to people, property or the environment. The full range of action alternatives, including no action, will always be considered.

I. OVERVIEW AND GOALS

- A. The Halifax, Kingston and Plympton Public Schools and the Silver Lake Regional School District shall develop and implement an integrated pest management program.
- B. An integrated pest management program is a pest control approach that emphasizes using a balanced combination of tactics (cultural, mechanical, biological, chemical) to reduce pests to a tolerable level while using pesticides and herbicides as a last resort to minimize health, environmental and economic risks.
- C. Pesticides and herbicides will be used only as a last resort, based on a review of all other available options.
- D. The integrated pest management program shall strive to:
 - 1. Reduce any potential human health hazard.
 - 2. Reduce loss or damage to school structures or property.
 - 3. Minimize the risk of pests from spreading in the community.
 - 4. Enhance the quality of facility use for school and community.
 - 5. Minimize health, environmental and economic risks.

II. RESTRICTIONS ON USE OF PESTICIDES AND HERBICIDES

- A. When pesticides or herbicides are used, they must be classified as an EPA Category III or IV. Application of any pesticide or herbicide may be performed only by certified applicators.
- B. Application of pesticides and herbicides may only be accomplished during a school break or when the building will be clear of students for at least 48 hours.

III. NOTIFICATION OF PESTICIDE AND HERBICIDE USE

- A. When pesticides or herbicides are used outdoors, notice of their use will be provided to parent/guardians, staff and students and will also be posted in a common area.
- B. When pesticides and herbicides are used in a building, the site will provide a 48-hour pre-notification in the form of posting the product name, purpose, application date, time and method and the Material Safety Data Sheet on all entrance doors. A contact person will also be listed.
- C. In the event of an EPA registered pesticide or herbicide application in or around a building site during the school year or summer session, a notice (including the product name, purpose, contact person, and application date, time and method), will be sent home in writing with students in the affected building at least 5 days prior to application.

IV. RECORD-KEEPING

- A. The District will keep a record of pesticides and herbicides used, amounts and locations of treatments and will keep any Material Safety Data Sheets, product labels and manufacturer information on ingredients related to the application of the pesticides or herbicides.
- B. All records of pesticides and herbicides used and correspondence will be available for public review upon notice and during normal school hours.

V. STAFF RESPONSIBILITIES AND EDUCATION

- A. Designated staff (School Nutrition, Buildings and Grounds, etc.) will participate in sanitation and pest exclusion procedure appropriate to their roles. For example: keeping doors closed, repairing cracks, removing food waste within 12 hours, keeping lids on garbage receptacles and keeping vegetation properly out.
- B. Ongoing education of all appropriate District staff will be a priority to ensure a safe and clean environment.

LEGAL REF.: Chapter 85 of the Acts of 2000, "An Act to Protect Children and Families from Harmful Pesticides."

FIRST AID

The school attempts to provide a safe environment. If an accident or sudden illness occurs, school personnel will administer first aid and, if warranted, call the school physician.

First aid is defined as the immediate and temporary care given in case of an accident or sudden illness, which enables the child to be taken safely home or to a physician. It does not include diagnosis or treatment. Any care beyond first aid will not be given.

At each school, procedures will be developed for the proper handling of an injury to, or sudden illness of, a child or staff member. These will be made known to the staff and will incorporate the following requirements:

1. The school nurse or another trained person will be responsible for administering first aid.
2. When the nature of an illness or an injury appears in any way serious, every effort will be made to contact the parent and/or family physician immediately.
3. No young child who is ill or injured will be sent home alone, nor will any older child unless the illness or injury is minor. A young child who is ill or injured will not be taken home unless it is known that someone is there to receive him or her.
4. In extreme emergencies, the school nurse, school physician or Principal may make arrangements for immediate hospitalization of injured or ill students, contacting the parent or guardian in advance if at all possible.
5. The teacher or other staff member to whom a child is responsible at the time an accident occurs will make out a report on an official form providing details about the accident. This will be required for every accident for which first aid is given.
6. All accidents to students and staff members will be reported as soon as possible to the Superintendent and, if the Superintendent deems appropriate, to the School Committee.

CROSS REF.: JLC, Student Health Services and Requirements

EMERGENCY PLANS

Advance planning for emergencies and disasters is essential to provide for the safety of students and staff; it also strengthens the morale of all concerned to know that plans exist and that students and staff have been trained in carrying out the plans.

The Superintendent will develop and maintain plans that meet the requirements of state law for preparedness in case of fire, civil emergencies, and natural disasters.

Building Principals will meet all requirements for conducting fire drills to give students practice in moving with orderly dispatch to designated areas under emergency conditions, and the staff practice in carrying out their assigned responsibilities for building evacuation.

EMERGENCY EVACUATION OF SCHOOL BUILDINGS

The safe, expedient, and orderly evacuation of the school is necessary during any emergency. Students are to follow the instructions of their teacher.

Specific instructions as to the route each class is to follow when exiting the building will be posted in each classroom and assembly area. Teachers should instruct students to make note of these routes to ensure the ultimate safety of all.

NUCLEAR POWER PLANT EMERGENCY EVACUATION POLICY

In the event of a declared emergency at the Pilgrim Nuclear Power Plant, each building principal will follow the evacuation policies and procedures as set forth by the Kingston Emergency Management Agency (KEMA).

BUILDINGS AND GROUNDS MANAGEMENT

Each School Committee's most important function is to provide for the education of children, and it recognizes that the education of children is dependent upon many factors, including a proper physical environment that is safe, clean, sanitary, and as comfortable and convenient as the facilities will permit or the use requires.

The supervision over the care and safekeeping of property used by the school department will be the general responsibility of the Superintendent. He/she will work with other town departments, as necessary, to develop a comprehensive and well-defined plan for the proper maintenance, cleanliness, and safekeeping of all school buildings and grounds to ensure that each school is equally well maintained, equipped, and staffed.

The Superintendent will establish procedures and employ such means as may be necessary to provide accurate information in regard to the nature, condition, location, and value of all property used by the school department; to safeguard the property against loss, damage, or undue depreciation; to recover and restore to usefulness any property that may be lost, stolen or damaged; and to do all things necessary to ensure the proper maintenance, cleanliness, and safekeeping of school property.

Within the separate schools, the building administrator will be responsible for proper care, maintenance, and cleanliness of buildings, equipment and grounds.

LEGAL REF.: M.G.L. 71:68; 71:16

BUILDINGS AND GROUNDS SECURITY

Public school buildings and grounds are one of the greatest investments of the town. It is deemed in the best interest of the school department and town to protect the investment adequately.

Security should mean not only maintenance of a secure (locked) building, but protection from fire hazards and faulty equipment, and safe practices in the use of electrical, plumbing, and heating equipment. The Committee expects school administration to work cooperatively with fire and law enforcement departments and with insurance company inspectors.

Access to school buildings and grounds outside of regular school hours will be limited to personnel whose work requires it. An adequate key control system will be established, which will limit access to buildings to authorized personnel and will minimize against the chance of entrance to buildings by unauthorized persons.

Funds and valuable records will be kept in a safe place and under lock and key.

Protective devices designed to be used as safeguards against illegal entry and vandalism will be installed when appropriate to the individual situation. Security personnel may be approved in situations where special risks are involved.

File: ECAC

VANDALISM

The School Committee recognizes that acts of vandalism committed against public and private property are costly and require positive action through educational programs. Consequently, the Committee will support various programs aimed at reducing vandalism.

Every citizen of the town, staff members, students, and members of the police department are urged by the School Committee to cooperate in reporting any incidents of vandalism to property under control of the school department, and the name(s) of the person or persons believed to be responsible. Each employee will report to the Principal of the school every incident of vandalism known to him/her and, if known, the names of those responsible.

The Superintendent is authorized to sign a criminal complaint and to press the charges against perpetrators of vandalism against school property, and is further authorized to delegate, as he/she sees fit, authority to sign such complaints and to press charges.

Parents and students will be made aware of the legal implications involved. Reimbursement will be sought for all or part of any damages.

STUDENT TRANSPORTATION SERVICES

The major purpose of the school system's transportation services is to aid students in getting to and from school in an efficient, safe, and economical manner.

The school system contracts for transportation services. The School Committee will award contracts on a competitive bid basis. Transportation contractors, who will be held responsible for the safe operation of school transportation vehicles, will comply with all applicable state laws and regulations, including but not limited to:

1. Specifications for school bus design and equipment
2. Inspection of buses
3. Qualifications and examinations of bus drivers
4. Driving regulations
5. Small vehicle requirements, if applicable
6. Insurance coverage
7. Adherence to local regulations and directives as specified in bid contracts

The Superintendent, working with the transportation contractor and other appropriate administrators, will be responsible for establishing transportation schedules, routes, stops, and all other matters relative to the transportation program.

SCHOOL BUS SAFETY PROGRAM

The safety and welfare of student riders will be the first consideration in all matters pertaining to transportation. Safety precautions will include the following:

1. Children will be instructed as to the proper procedure for boarding and exiting from a school bus and in proper and safe conduct while aboard.
2. Emergency evacuation drills will be conducted at least twice a year to acquaint student riders with procedures in emergency situations.
3. All vehicles used to transport children will be inspected periodically for conformance with state and federal safety requirements.
4. Classroom instruction on school bus safety will be provided.

DRUG AND ALCOHOL TESTING FOR SCHOOL BUS AND COMMERCIAL VEHICLE DRIVERS

The District shall adhere to federal law and Department of Transportation regulations requiring a drug and alcohol-testing program for school bus drivers and commercial vehicle drivers. Such testing will be conducted for five different situations: pre-employment, randomly, following an accident, following an authorization to return to duty, and upon reasonable suspicion that a driver is under the influence of alcohol or using drugs.

The District will comply with Department of Transportation protocols regarding the collection and testing necessary to establish whether alcohol or drugs are present in the driver's system, and regulations will be established for the steps to be taken in the event that test results are positive.

This program shall comply with the requirements of the Code of Federal Regulations, Title 49, Section 382 et seq. The Superintendent or designees shall adopt and enact procedures consistent with the federal regulations, defining the circumstances and procedures for testing.

STUDENT CONDUCT ON SCHOOL BUSES

The School Committee and its staff share with students and parents the responsibility for student safety during transportation to and from school. The authority for enforcing School Committee requirements of student conduct on buses will rest with the Principal.

To ensure the safety of all students waiting for or riding in buses, it may occasionally be necessary to revoke the privilege of transportation from a student who abuses this privilege. Parents of children whose behavior and misconduct on school buses endangers the health, safety, and welfare of other riders will be notified that their children face the loss of transportation privileges in accordance with regulations approved by the School Committee.

File: EEAG

STUDENT TRANSPORTATION IN PRIVATE VEHICLES

School buses will be used for the transportation of students participating in co-curricular or extracurricular activities. However, when buses are not available, or in the case of an emergency, private vehicles may be permitted to transport students with the approval of the Superintendent of Schools or building Principal.

Whenever practical, parents of students to be transported in this manner will be fully informed ahead of time as to this means of transportation.

MOTOR VEHICLE IDLING ON SCHOOL GROUNDS

No motor vehicle operator shall cause or allow any motor vehicle operated by him or her on school grounds to idle unnecessarily, except for any of the following reasons: traffic conditions; queuing at a school for the purpose of picking up or discharging students; turbo-charged diesel engine cool down or warm up; maintenance of appropriate temperature for school buses when accepting or discharging passengers not to exceed three minutes in any fifteen minute period or one minute in any fifteen minute period for other motor vehicles; for circumstances involving safety or emergencies and for servicing or repairing motor vehicles; and as these exceptions are more completely described in the below referenced regulations. The term "school grounds" shall mean in, on or within 100 feet of the real property of the school whether or not it is in session, and shall include any athletic field or facility and any playground used for school purposes or functions which is owned by the municipality or school district, regardless of proximity to a school building, as well as any parking lot appurtenant to such school athletic field, facility or playground. Reasonable efforts shall be made by the district to identify by signage all known and actual air intake systems, which may be within 100 feet of an idling motor vehicle. A motor vehicle operator shall not idle a motor within 100 feet of such air intake system, unless the Silver Lake Regional School District and Superintendency Union 31 have determined that alternative locations block traffic, impair student safety or are not cost effective.

The Silver Lake Regional School District and Superintendency Union 31 schools shall erect and maintain in a conspicuous location on school grounds "NO IDLING" signage as described below. All such signage shall contain appropriate sized font so as to be visible from a distance of 50 feet.

NO IDLING

PENALTIES OF \$100 FOR FIRST OFFENSE AND \$500

FOR SECOND AND SUBSEQUENT OFFENSES

M.G.L. C. 90, § 16B AND 540 CMR 27.00

It shall be the responsibility of the school administration to ensure that each school bus driver employed by the Silver Lake Regional School District or Superintendency Union 31 and not by a school bus contractor shall, upon employment and at least once per year thereafter, sign a document acknowledging the receipt of copies of M.G.L. c. 90, § 16B and 540 CMR 27.00. The prohibitions contained in M.G.L. c. 90, § 16B shall be enforced by state or local law enforcement agencies.

FREE AND REDUCED PRICE FOOD SERVICES

The school system will take part in the National School Lunch Program and other food programs that may become available to assure that all children in the schools receive proper nourishment.

In accordance with guidelines for participation in these programs, and in accordance with the wishes of the Committee, no child who a teacher believes is improperly nourished will be denied a free lunch or other food simply because proper application has not been received from his parents or guardians.

As required by state and federal regulations, the School Committee will approve a policy statement pertaining to eligibility for free milk, free meals, and reduced price meals.
